Henderson Mine in Colorado

Proposed site for DUSEL:

- Working molybdenum mine; 150M$ modernization completed in 2000
- 10 km from Interstate 70: easily accessible, roads kept clear in winter
- Near major urban/industrial area and airline hub
  - 90 min drive from Denver International Airport
  - Nearby research infrastructure, institutes and universities:
    - Colorado State, U. Colorado, NIST, Denver U., USAFA, Colorado College, Aspen Center for Physics
  - Direct passenger and cargo flights to major cities around the world
